

Summit Classic Ltd Cognac Burst Flame

Continuing on the tradition of the Godin Summit CT, the all new Summit Classic Ltd Cognac Burst Flame is a serious rock machine. With a "heaping helping" of vintage vibe and the playability of a premium modern guitar, this limited-run guitar raises the bar for classic single-cutaways. Each guitar is loaded with hand-wound Bare Knuckle Mule pickups which deliver clarity and punch whether played clean or overdriven. The High-Gloss Cognac Burst finish highlights the guitar's stunning Flame Top and demonstrates the Summit Classic Ltd's beauty is much more than skin deep. Beneath its ergonomically carved Maple Top is a Mahogany body with 5 hollow chambers strategically placed throughout the guitar's body. Each is tap-tuned to a different note ensuring rich, musical tones and extremely consistent note-to-note balance. This incredibly lightweight and resonant chambered Custom Shop beauty is a joy to play and comes with special Godin hardshell case.
