## Summit Classic Ltd Desert Blue

Continuing on the tradition of the Godin Summit CT, the all-new Summit Classic LTD Desert Blue is a serious rock machine. The hand-wound Bare Knuckle Mule pickups deliver clarity and punch whether played clean or overdriven and its High-Gloss Desert Blue finish contains a hint of sparkle and plenty of class.

Beneath its ergonomically carved Maple Top is a Mahogany body with 5 hollow chambers strategically placed throughout the guitar's body. Each is tap-tuned to a different pitch to ensure rich, musical tones and extremely consistent note-to-note balance. This incredibly lightweight and resonant Custom Shop beauty is a joy to play and comes with a special Godin hardshell case.
